## Profiling Sheet

**Q.1: Write your career objective.**

To secure a challenging position as a software engineer where I am utilizing my python programming skills and logical reasoning to develop innovative solutions.

**Q.2: Why do you want to be an engineer? Elaborate reasons.**

Engineering to me, is about the power to build something from nothing. I am fascinated by how few lines of code can solve complex real world problems.

**Q.3: Write about projects or internship you have done/ are doing along with the learning.**

I have been working on data manipulation projects using python, Pandas and numpy. These projects taught me how to handle large datasets and derive meaningful insights.

**Q.4: What would you consider a significant achievement in your life and why?**

Successfully balancing my 3rd semester B.Tech workload while gaining knowledge about my many languages (coding) and managing my daily schedules

**Q.5: Write about a failure of yours which you consider to share. What have you learned from it?**

~~Success~~ I didn't manage my time well and tried to study everything at the last minute. This caused a lot of stress. It is much better to study a little bit every day than to rush at the end.

**Q.6: What are your strengths? Write one or two instances where you have demonstrated your strengths.**

My strengths are hardwork and willingness to learn. I am good at logical thinking

**Q.7: Write about your weaknesses. What are you doing to overcome your weaknesses?**

I sometimes spend too much time trying to make one small part of a project perfect. This can make me slow. To fix this, I now make a to-do list

**Q.8: What is the most difficult moment that you have faced in your life so far? What qualities helped you to overcome the moment?**

Was applying for PMSS scholarship while also having college exams. There were so many documents to fill and deadlines to meet.

**Q.9: Apart from academics, what else are you interested in?**

**Make a separate list in terms of extracurricular activities, sports and any other interests.**

→ Extracurricular activities - Learning new technologies  
→ Sports - Volleyball

- I am disciplined
- I like learning new tools
- I am ~~focused~~ focused on my goals
- I believe in consistency
- I like improving myself.

**Q.12: What kinds of people do you enjoy working with?**

I like working with people who are helpful and honest. I enjoy being a team where everyone talks to each other and shares ideas freely

**Q.13: What kinds of people you don't want to work with?**

What would you do if they became your senior in your dream job?

I don't like working with people who are lazy or don't communicate. I would focus in doing my job perfectly and keep a record of all my work

**Q.14: What do you expect from your first job? Prioritize and write in order.**

1) To learn how real software company works

2) To have a good senior who can guide and mentor me

**Q.15: In the past year, what have you been dissatisfied about in your performance?**

I was unhappy that I didn't practise coding every single day. I realised that to be a great engineer, I need to be more regular with my practise.

**Q.16: Rate yourself out of 5 in verbal communication. What are you doing to improve your communication skills?**

(3.5/5) I am good at explaining my ideas but I want to be more confident when speaking in group.

Q.17: Who is your role model? What qualities of that person you would like to see in your personality and why?

My father is my role model. He was an officer in the army. I want to have his discipline and his 'never give up' attitude in my own life.
